Decision Making Model

Identify problem and the issues involved

Refer to Human and Children's rights, the BCTF ethical protocols, The BCTC Standards and any relevant legal issues.

Seek information- Collaborate when appropriate. Check in and evaluate with personal biases and viewpoints.

Evaluate who will be affected by the decision. What is best for the students? Who is most at need? Evaluate options and consequences.

What are the longterm effects are they positive, negative, worth the decision?

How do you feel about this decision? Do you feel the need to re-evaluate?
